

# The National Maternity Hospital

## VISION

We aim to deliver a first class quality patient focused service, by providing safe and effective care, delivered by skilled professionals in a cost effective manner.

## MISSION

To create an environment which fosters excellence and innovation.

To ensure that our patients receive high quality, evidence based care and that their dignity and rights are respected.

To actively promote and strengthen a culture of quality & safety throughout the hospital.

To create a working environment where each person is valued, respected and facilitated for personal and professional growth.

To continue our strong commitment to education and research.

To maximise the use of our resources and enhance strategic alliances.

*“Delivering the future”*
